ANIMAL CHEMISTRY.

A NIMAL CHEMISTRY—has proved beyond all question that means can be so chemically combined as to act upon the absorbent system, and remove various accumulations, which, if allowed to continue wid create disease, pain, troublesome tumors, morbid swellings, scrofulous diseases. &c. According to the chemistry and the physiology of the human system, a remedy has been discovered, and is now applied and rendered successful in removing painful swellings, pains in the side and back, rheumatism, scrofulous humans, King's Evil, enlargement about the throat and neck, ague cakes, enlarged sideen, &c. &c. One thing should be borne in mind by every physician, that the means here spoken of should be used in preference to every thing else, in case of gatherings or painful swellings in the hecast of those who nurse. When the bleasts are painful—there are no means which can be used swenings in the recast of those who nurse. When the breasts are painful—there are no means which can be used that will give so quick and certain relief as this. It never fails, for weak backs, spinal irritations, and in fact all kinds of weakness or inflammations, it cannot fail. As an external application in liver complaints, pains in the hips and shoulders, Chronic and inflammatory Rheumatism, it has no equal, and as a pain extractor, of all kinds there is no drops, liminent or planer that will compare with the no drops, liniment or plaster that will compare with the "JEW DAVID'S OR HEBREW PLASTER."

this is the remedy, and it is too well known among physicians in general to need any other description. Thousands have been relieved by this plaster—after every other application had falled. It is pleasant to wear, and no one need fear taking cold in that part over which the plaster is applied. A pamphlet giving an account of its discovery with certificates, directions, 4c. accompany each Box—which is sufficient to spread six or eight plasters. Price 50 ceals.

So cenis.

To F. & H. Keyes, Agents for Dr. Carter's Balsam. In April, 1841, my wife was attacked with local in-flamation of the lungs, with severe cough and hecife fever. She continued to decline rapidly for two months, and had all the appearance of confirmed con-sumption. She was under medical treatment during the whole time, but to no good purpose. I advised her to suspend the use of medicine; to this she reolied her case must be hopeless.

I then obtained a Bottle of Dr. Carter's Pulmonary

Balsam, commenced giving three tea spoons full every 24 hours, with no other expectation than an opiate effect.

It is due to Dr. Carter and his associates to state that 10 Bottles of their Balsam cured this patient in three months, and they have her full thanks. I have witnessed the beneficial effects of this medicine in ate effect. several instances for the last 18 months in curing pul-

CONSUMPTION AND LIVER COMPLAINT.

BALSAM OF LIVERWORT,

BALSAM OF LIVERWORT,
FROM 375, BOWERY, N. Y.
FOR the cure of Coughs, Colds, Asthma, Whooping Cough, Catarrh, Pains in the Side and Breast, Bronchitis, Liver Compliants, and all those affections of the Throat and Lunga, which are a source of so much suffering, and so often terminate in Consumption. This remedy is justify and highly dietinguished. It is purely vegetable, initid and gentle in its effects upon the system, and can be taken in the mean delicate cases with safety as well as utility. So extensively has it been used, and so often proved successful, even in extreme and apparently almost hopeless cases, not only as a pulliative but as a remedy that the proprietor fools no headancy in introducing it, and recommending it to all who unfortunately may have occasion to resort to some means for recovery.

Physicians familiar with its effects and aware of the heating properties of this vegetable preparation, not unfrequently prescribe it in their practice, and with the medical faculty generally, it has met with more than ordinary approbation.

Certificates from the highest and most respectable sources, of persons who have either been greatly relieved by it, or entirely recovered from affections of the Lungs and Liver, could be furnished in abundance, but we deem is not necessary to publish them, as the medicine is so generally known throughout the country, to be the best midicine in one for diesace of the Lungs and Liver.

For a common Cold and Cough this is one of the very best remedies ever discovered.

N.B. There is a spurious and counterfelarticle affeat, and lately introduced into this place. Therefore be careful to get the genuine, which is from 375 Bowery, New York, and see that the new steel place label is on the bottle tag prevent counterfelis.

CERTIFICATE.

This may certify that my wife, was afflicted with an exceeding painful and troublesome humor, for about six years. Its principal seat was in her mouth, abdut six years. Its principal seat was in her mouth, although it occasionally appeared in her cyes—in character it was very much like a "nursing sore-mouth," accompanied with much heat, inflammation and a smarting sensation, extending down the throat into the stomach, upon any attempt to open her mouth. This continued unabated throughout the whole six years, with only an occasional intermis-sion, caused by the setting in of diarrohea, during continuance of which her mouth would get better. The advice and treatment of physicians, and the waters of different mineral springs, travelling and every means, were faithfully used, but with no permanent benefit. The sore mouth remained obstrate and painful as ever, and the fore part of last winter, she became almost discouraged. winter, she became almost discouraged, and was very low spirited in consequence. Dr. Bang's Renovating Mixture was recommended to me, and I procured a bottle for her. She was perfectly hopeless of getting any benefit from that or any thing else, but commenced and continued the use about four weeks, and finding no relief, was for giving it it up—she was urged however to keep on, and did it up—she was urged nowever to keep on, and did so, for about two weeks longer, when there appeared upon the surface of her body, a fine rash, accompa-nied with an itching sensation. This, after a steady use of the mixture for about three weeks longer was entirely cored, and with it, the last remains of the sore mouth. This was in the fore part of last March. Since that time her health has been remarkably good, she has gained as much as twenty five pounds

good, she has gained as much as twenty five pounds in flesh, her appetite has been uninterruptedly good, and her health every way established. I consider her cure as a very remarkable one, and all her friends in this town who saw her before and since taking this medicine, are fully of the same opinion.

Mr. Elbridge Bingham of St. Albans, for the cure of a burning, smarting humor, with which he had been afflicted for years.

after he commenced taking the mixture.

The following is among the many letters which have lately come to hand. The subscriber is a very respectable merchani of Ashtabula, Ohio. Dr. J. E. Bands,—Dear Sir—Some eight years ago I was attacked with an affection pronounced by physicians as Salt-Rhoum. It was confined entirely to my hands, which disenabled me, at least, through most of the winter season to attend to the business I was engaged in, that of selling goods, as I was under the necessity of keeping my hands and fingers bound up. I had applied to the different physicians of my acquaintance, and procured and used most of of my acquaintance, and procured and used most of the nostrums of the day, but all to no effect. Being afflicted as I was, and the disease growing worse and worse every year, I made it a business to search daily among the thousands of remedies for different diseases, in hopes that I yet might find something to relieve me from the troublesome humor with which I was sflicted. Standing in my door one day last fall I saw exhibited at the window of W. E. Fowler's, a large bill with the following inscription, "Dr. J. E. Bangs' Renovating Mixture, for the cure of all diseases, arising from an impure state of the blood." I immediately called on Mr. Fowler, your agent, I and from his recommendation of the Mixture and your standing as a physician, I procured a bottle of the standing as a physician, I procured a bottle of the Mixture and commenced taking it—but not as you directed on your bills—for being anxious to drive the disease from my system, I took three tea-reconfulls

three times a day, until I had taken nine bottles. It is now some two months since I left off taking your Mixture, and I can see no appearance of my hands breaking out, but remain perfectly smooth.

Feeling fully convinced that I owe my recovery from a very disagreeable disease, which for years had baffled the skill of the first medical practitioners in the country, entirely to the use of your valuable medicine, and deeming it duty I owe, not only to you butto the suffering public, to make known the fore-going facts, I send you this statement, which you are at liberty to use assuits you best.
